Booking the Businessmen for your event requires some logistics and cooperation with the venue. Often we are booked with third party groups and the venue is selected separately by the group that books us.

Please be sure that the venue understands our band has certain requirements to facilitate our show. It is important the booking entity contact the venue to ensure that the following can be accommodated:

1. A loading dock or other loading point for our equipment.
2. A path from the loading point to the stage for one hour from load in and 2 hours immediately after the show ends.
3. Unhindered access to the stage 4 hours previous to the show time.
4. Unhindered access to the stage 1 hours immediately after the show ends
5. Minimum stage dimensions of 24 foot wide x 12 foot deep.
6. Allowable time for tuning PA at 100db spl c weighted and sound check at least 1 hour before show time.
7. A position Front of House for the mixer, mixing console and rack. This position needs to be at minimum 2/3 of the distance from the Main Speakers to the back wall of the room but at least 6 feet from the back wall.
8. (4) discreet 120v 30Amp power circuits readily accessible to the stage and marked as independent circuits.
9. Name and phone number of a primary contact who has decision making ability for the venue needs to be forwarded to the technical manger (phone number and email address listed above) of the Businessmen 3 weeks prior to the show date.

Please contact the venue early in your process and discuss our requirements. If there are ANY points which the venue can not accommodate, please contact the technical manger (phone number and email address listed above) to resolve these issues.
